Prabanjana C

Computer Science and Engineering Student | Full-Stack Developer Intern

Coimbatore, Tamil Nadu | 9787900822 | prabanjanachidambaram2007@gmail.com | LinkedIn | GitHub

Professional Summary

Second-year B.E. Computer Science student (SGPA 9.4/10) with full-stack internship experience building GraphQL APIs using Apollo Server, Prisma ORM and PostgreSQL. Built an emergency-relief platform and a transport-management system using JavaScript, TypeScript, Node.js and Express.js. Seeking a software development internship to contribute to real products and keep growing as an engineer.

Technical Skills

- **Languages:** JavaScript, TypeScript, Java, C, C++
- **Frontend:** HTML, CSS, JavaScript, Responsive Design
- **Backend & APIs:** Node.js, Express.js, GraphQL, Apollo Server, Prisma ORM, Bun, npm
- **Database:** PostgreSQL
- **Tools:** Git, GitHub

Experience

Full Stack Development Intern — Burdenoff Consultancy Services | May 2026 – June 2026

- Built a full-stack Bookstore application end to end, designing GraphQL APIs with Apollo Server, Prisma ORM and PostgreSQL.
- Implemented book search, filtering, cart management, checkout and stock validation to keep inventory accurate during orders.
- Strengthened skills in API design, database modelling and backend validation logic while working in a professional development environment.

Projects

Aidora – AI-Powered Emergency Relief & NGO Coordination Platform | HTML, CSS, JavaScript

- Built a responsive web platform connecting people in need with NGOs, volunteers and emergency responders during emergencies.
- Implemented emergency help requests, volunteer registration, NGO coordination, donation information and request tracking.
- Designed a clean, user-friendly interface to speed up emergency response and resource coordination.

Public Transport Management Platform – Full-Stack Web Application | Node.js, Express.js, TypeScript, PostgreSQL | *In progress*

- Developing a platform to manage buses, routes, drivers and trips for public transport operations.
- Implementing user authentication, role-based access control and CRUD operations for efficient transport data management.
- Building a reliable backend with Node.js, Express.js, TypeScript and PostgreSQL to support real-time transport updates.

Education

B.E. in Computer Science and Engineering — Sri Krishna College of Engineering and Technology, Coimbatore | 2025 – 2029 (Expected) | SGPA: 9.4 / 10

Class XII — Sri Ramana Vidyalaya Montessori Matric Higher Secondary School, Rajapalayam | 2025 | 96.5%

Class X — Ananda Vidyalaya Matric Higher Secondary School, Rajapalayam | 2023 | 92.5%

Certifications

- MongoDB Certification
- Generative AI Essentials — IBM
- Generative AI for UI/UX Design — IBM
- Business Analytics with Excel
- Create Image Captioning Models
